

Research Participation Preferences Form

A pre-study accessibility form for approved research projects.

Tool type

Profile / Form

Primary users

Autistic research participants and study teams

Use note: This is a practical institutional resource. It is not a diagnostic instrument, clinical assessment, or legally sufficient consent/approval document. Adapt to local law, policy, ethics requirements and individual needs.

Research accessibility preferences

This form supports accessibility planning for a study that has the required ethics/research approvals. It does not replace informed consent or ethics review.

Select	Preference / adjustment	Notes
☐	I prefer information in writing before a meeting or session.	
☐	I prefer clear agendas or step-by-step explanations.	
☐	I may need extra processing time.	
☐	I may prefer typing, AAC, visual options or another communication method.	
☐	I may need a quiet or lower-stimulation space.	
☐	I may need breaks or shorter sessions.	
☐	I prefer remote participation where possible.	
☐	I want a supporter present.	
☐	I need travel or expense information in advance.	
☐	I want study-result updates if available.	

Anything else the research team should know?
